Hello everyone,

The Chemicals Testing Resubmission review is rapidly coming into shape. I'm attaching the re-submitted applications (which include their critique summary statements), the instructions that the PIs received and your critique review form to this email. You can view the original applications at <https://proposalcentral.altum.com/review/login.asp>.

# Deliberative Process / Ex. 5

Please review and score all three applications, and send your preliminary scores to me one working day prior to the call. The process for reviewing the applications on the teleconference will be similar to the review you performed in May except that everyone will have a chance to discuss their reasons behind their scores and submit a final score after the discussion.

As far as scheduling the teleconference is concerned, I'd like to set the time for **Monday August 8, 12-1pm Eastern time** (9-10am Pacific) based on the responses I've received so far. If you haven't sent me your schedule yet, please let me know if this time works for you. If it doesn't, please tell me your availability for a one-hour call during:

- 11am-2pm Eastern, Monday August 8
- 4-6pm Eastern, Monday August 8
- 11am-12pm Eastern, Friday August 12

Thank you for your patience and cooperation with this process. If you need more information or clarification about any of this, please let me know.

All the best,  
Katie

**Subject:** Chemicals Testing Resubmission Review

Hello Everyone,

I hope you're having a wonderful summer!

I'm writing to schedule a one-hour conference call to review the three re-submissions for the CBCRP's Making Chemicals Testing Relevant to Breast Cancer Special Research Initiative. I'd like to hold the call during the second or third week of August. If you are completely booked for either week, please let me know right away. Otherwise, please use this Doodle link to let me know your availability for the second week of August <http://doodle.com/f6ec6w9amtpz6ifu>.

Regarding the actual review, I'll email the re-submissions to you next week along with review instructions and forms. Please read and score all three applications. The research plans are limited to 5 pages. You will also have access to the original applications and review summary on proposalCentral.

As always, questions are welcome. Thank you again for your continued commitment to this project.

All the best,

Katie
